

Speed to Lead

Capture the enquiry while the intent is fresh.

WHAT TO MEASURE

Track: time to first accepted message, replies and booked meetings.

Lead Generation

Every prospect needs evidence you can inspect.

WHAT TO MEASURE

Track: evidence pass rate, duplicate rate and accepted prospects.

Quote

Language is flexible. Pricing is deterministic.

WHAT TO MEASURE

Track: estimate preparation time, approval time and accepted quotes.

Voice Receptionist

A phone conversation with accountable tools.

WHAT TO MEASURE

Track: answered calls, tool latency, confirmed bookings and handoffs.

Follow Up

A finite sequence that stops when the customer responds.

WHAT TO MEASURE

Track: reply rate per touch, stop latency and sequence completion.

Appointment Setting

Availability is live; confirmation is explicit.

WHAT TO MEASURE

Track: confirmed bookings, reschedules and attendance in client records.

Recruitment Review

Organize evidence for a human hiring decision.

WHAT TO MEASURE

Track: review time, evidence quality and human-approved invitations.

Content Repurposing

Turn one source into a reviewable set of distinct posts.

WHAT TO MEASURE

Track: approved drafts, edit effort and actual published-post performance.

Marketing Experiments

Use real observations to propose the next test.

WHAT TO MEASURE

Track: approved tests, spend and conversions measured in the ad account.

Customer Support

Answer from approved knowledge and show the source.

WHAT TO MEASURE

Track: grounded replies, handoff rate and outcomes verified by staff.
